## REPLACEMENT BEET RINGS

**HCL Machine Works** is a premier manufacturer of 28" and 29" Beet harvester lifter ring assemblies and replacement rings. Replacement lifter rings are manufactured using high carbon plow steel and can be ordered with **HARDFACED** or **PLAIN** edges.

**HARDFACED** replacement beet lifter rings are available in both 28" and 29" diameters.

**PLAIN** replacement beet lifter rings are also available in both 28" and 29" diameters.

Each beet lifter ring has a beveled edge which provides increased penetration.
