BELT GUARDS

The New Belt Guards*, now standard on our compost turners, are designed to block composting materials that may occasionally be projected forward during the composting process.

For those who already own an HCL 10' or 12' Compost Turner the New Belt Guards are available in a kit for purchase. Call for details on ordering the New Belt Guard Kit.

For more information contact: **HCL Machine Works**
15142 Merrill Ave. Dos Palos, CA 93620 209/392.6103
hclmachineworks@unwiredbb.com

*The New Belt Guards are made of heavy duty, 2-ply rubber belting.
